

### Monthly Updates

From novelties in our sales, hardware, and low-voltage businesses to inside news on our internal operations, Kambrian aims to keep customers informed. Keep reading to get the latest scoop.

### LOW-VOLTAGE:

Kambrian Corporation is happy to announce that we will be providing materials and installation services to the California Department of Community Services and Development for their facility renovation project this fall. We're looking forward to contributing our technical expertise to the CSD team!

On other news, Kambrian recently signed a Construction and Maintenance Services Agreement with AT&T, preceding an invitation to bid on their upcoming electrical and cabling service solicitations. We appreciate this opportunity with our new customer.

Finally, Kambrian was also recently awarded TESMA contract # TA753, including Polycom, Crestron, Microsoft, Samsung products and more. Kambrian will be subcontracting this project, assisting with equipment and workstation installations as well as cabling and wiring. This project has already commenced and will continue through summer 2019.

### FEDERAL:

On the federal ground, Kambrian has been working together with our customer, the Executive Office of the United States Attorneys (EOUSA), renewing the maintenance and support for their CloudNine licenses for the upcoming 5 years. We aim to deliver quality and consistent support across all of our accounts short-term or long-term projects alike.

### LOCAL GOVERNMENT:

Kambrian's Multiple Award Task Order Contract (MATOC) was recently extended through September 2020 for the Los Angeles Community Colleges, allowing us to provide construction services to the colleges. We aim to get more involved with upcoming LACCD RFPs.

### IT NEWS:

***The SURFACE HUBS are here***

We've already listed some of our major government accounts on the pre-order queue for the Surface Hubs. Contact us to place an order!
