

Happy Valentine's Day!

Monthly Updates

High Growth:

The Covid-19 pandemic has affected every person and every industry across the world. Through the trials and tribulations, Kambrian is able to report growth! The pandemic has brought changes to our corporation, but they have only given us the opportunity to adapt. Our business has doubled in 2020 – Thanks to our hard work, teamwork, and amazing clients and distributors. We look forward to an even better year in 2021!

Geographical Expansion:

We are now registered as a vendor with the states of WA, DE, NV, and OH

Training Webinars:

McAfee for K-12: Join us for a complimentary webinar to learn from cybersecurity and funding experts about classroom vulnerabilities, bolstering cybersecurity, and 2021 federal funding outlook. [Click here to register.](#)

New Partnership:

We are proud to announce our newest partnership: Secureworks. Secureworks is a corporation that solely focuses on cybersecurity. Secureworks® Taegis™, a cloud-native security analytics platform built on 20+ years of real-world threat intelligence and research, improves your ability to detect advanced threats, streamline and collaborate on investigations, and automate the right actions. [Click here to learn more about Secureworks.](#) We are very excited for this partnership.

Contract Vehicles:

OHIO: Kambrian is now on the State of Ohio's STS contract with Carahsoft for McAfee
TX: Kambrian is now on DIR, Department of Information Resources, with Carahsoft for McAfee
GSA MAS: Kambrian is now on the GSA contract with ImmixGroup for Open Text

Cabling Sector

LAUSD:

Kambrian has been very active in the cabling sector of our business. We had the opportunity to bid on an LAUSD opportunity, the 2nd biggest Unified School District, and we have been chosen to receive the contract for the IFB 2000002123 IT Support Services contract to start in 2021.

Telaid: Receiving new cabling customers:

[Telaid](#) (click to learn more) is a leading technology deployment company with nationwide presence to assist national retailer with new install and maintenance of technologies such as PoS systems, wireless systems, and physical security solutions. Kambrian's skilled cabling technicians will work with the supply and demand of Telaid's workload in order to meet the company's expectations.

LA VOTE!:

Kambrian's cabling team had a successful install project for LA County, LA VOTE! We installed 12 cameras at the Pomona Fairplex to monitor ballot counting for the 2020 US Election. This included installing new conduit from the MPOE, up the wall, and across the ceiling to the designated camera locations. We then installed a "video wall" of displays at the customer's Norwalk location that were used to monitor the Pomona Fairplex cameras. We installed and programmed the camera systems successfully, and in time for the 2020 election. What an amazing project to be a part of!
