COMPANY NEWS

November 2020 Edition

Monthly Updates

From novelties in our sales, hardware, and low-voltage businesses to inside news on our internal operations, Kambrian aims to keep customers informed. Keep reading to get the latest scoop.

State and Local:

Kambrian is proud to update our venture into the state of **Massachusetts**. We have been certified as MWBE! This is an exciting furtherment into our expansion into MA.

On another note, we are also delighted to announce that Kambrian Corporation will be extending our 3-year hardware contract with our customer, **LADWP**! LADWP is the Los Angeles Department of Water and Power. The contract has been extended for another 2 years, to 2023. We look forward to continuing our great partnership with LADWP, and are excited for what the future holds!

A note from us to you:

*Happy
Thanksgiving!*

We hope it is happy and healthy for all.

Low Voltage:

As you may recall from the October 2020 Newsletter, Kambrian has been working significantly on the **SOFI Stadium** in Los Angeles. We have now wrapped up a large portion of the work at the stadium. We were able to work with the NFL Broadcast building on the LASED site as we worked on their telecommunications. Now, we will be moving to work on a 6,000 seat performance venue. Meanwhile, Kambrian has included the electrical scope for UPS and PDU.

We want to give a warm welcome to one of our new Technical Sales Managers. We're happy to have you join the Kambrian IT sales team, Suki!

Tech News

Kambrian is excited to announce that we have partnered with **New Net Technologies (NNT)** to provide ultimate protection against cyberthreats by combining industry-approved foundational controls with intelligent change control, advanced configuration management and breach detection.
