Secure IT is Security

As we end the Summer season and things cool down, Security Concerns continue to heat up. That is why we are excited to highlight Appgate and Red Canary in this issue's "Kambrian Confirmed", our newsletters Partner showcase to keep you in the know on the latest offerings from some of the greatest brands we offer.

Going alphabetically, Appgates' strength is in creating a controlled migration path to the cloud for organizations with a major point of differentiation being a self-hosted solution offering. This level of internal control allows for fewer positions to be compromised.

Red Canary serves as a Managed Detection and Response system. Red Canary far exceeds the industry standards due to its large data set of analytics, used to both assess and attack breaches at a rapid rate. That wealth of information paired with their 24x7 Customer support creates an easy experience for clients while making it difficult for perpetrators to gain access.

Seed LA

Field Services

It all smiles as Kambrian Techs begin to install Security Features, like Cameras and Card Readers, for Seed LA, a school in South LA dedicated to serving at-risk Students by emphasizing job readiness in STEM industries.

Big Win with Big Screens

Field Services

The Video Wall Project is finally underway as Kambrian preps the Data Rack location in the Fontana Facility of San Bernardino County Transit Authority/ Transcore. Look out for more details in later issues as we reveal the final Display using twelve 55" Screens.

HQ Part Two

HQ

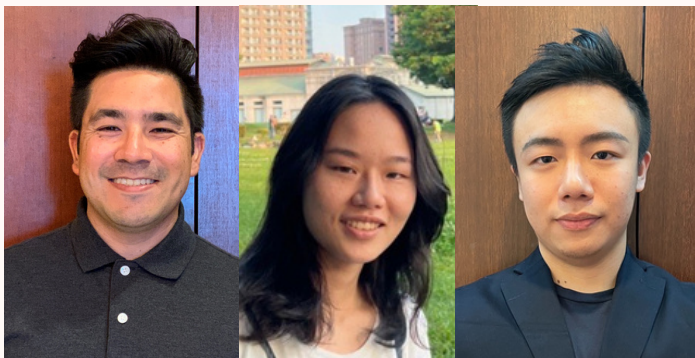

Coinciding with our 13th Anniversary this July, Kambrian's sustained growth has materialized in the form of a new Satellite office for our Late Shift & Their Operations team.

We Grew the Crew

HQ

While Kambrian continues to flourish, so does our work staff as we recently welcomed three new employees. We now have James in our West Covina Office and Jasmine & Vic in our Satellite Branch.

KAMBRIAN CATCH-UP

Hitting the Chesapeake Bay

IT

As Kambrian continues to expand it's State & Local Coverage, we are excited to announce our new presence in the Great State of Maryland.
