## *Kambrian Cookout*

To kick off the summer, all Kambrianites from both sects of our organization, IT and Field Services came out for our inaugural Company day. Employees brought out friends and family alike to Creekside Park, in Southern California

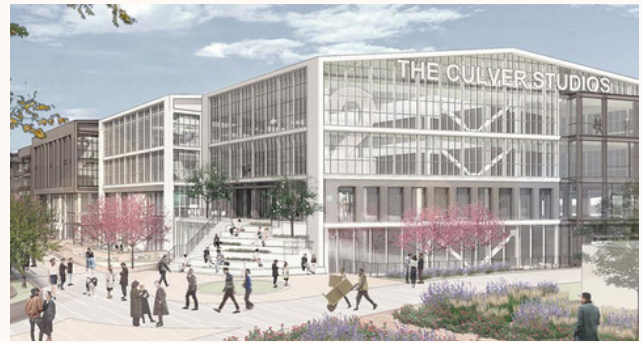

With Catering provided by one of our team members' entrepreneurial endeavors, Mac'O Fact, we definitely worked up an appetite as we played games, basking in the early summer sun. It was a great moment for both sides of our business to interact as one, both sharing old memories and creating new ones.

JUNE 2022

## Cool Heads Prevail

### Field Services

Kambrian recently paired up with Trane HVAC to assist in the Amazon Studios Theatre Project in Culver City California. Kambrian Techs will do the Cabling and Control Devices

## Another Gain With Trane

### Field Services

Trane's working relationship with Kambrian continues as we team up again, this time for the Airport Metro Connector for more HVAC needs. Seen here is the team meeting with the Project Manager on-site.

## Work With Census Commences IT

Due to our longstanding relationship with Carahsoft and our investment in contract vehicles like 8a STARS III, we were able to partner together with both Carahsoft and Granicus for a Sole Source opportunity for the US Census Bureau.

## Employing to Empower Field Services

Kambrian as a small business knows the power of job creation, so we are elated to highlight Theresa, our Sr. Operations Manager's initiative for sourcing Techs from FJS Telco Training. This Program aids in reducing the likelihood of recidivism by teaching trade skills for job placement. We are extremely impressed with the apprentices who have graduated and joined Kambrian, who are working to better themselves as well as the businesses we serve.
