

Monthly Updates

From novelties in our sales, hardware, and low-voltage businesses to inside news on our internal operations, Kambrian aims to keep customers informed. Keep reading to get the latest scoop.

COMPANY NEWS:

From Kambrian's IT solutions to the low-voltage side of the business, Kambrian continues to unwaveringly service its customers, providing competitive and timely pricing for hardware, software and installations to Work From Home (WFH) efficiently. Already in the beginning of the Autumn months, Kambrian has supported over 30 State & Local Government accounts and Small Business with WFH technological solutions. We are proud to be of service to our customers during this time, when being connected with our peers virtually has become more crucial than ever.

On another note, we are also delighted to add another software brand to our linecard, Knowb34, the security awareness training software company that helps users manage their security efforts. We recently became a partner for Knowb4 and joined forces with them to provide competitive pricing to our customer - the Chicago Transit Authority. We are happy to have helped deliver and connect our customer to Knowb4's products and services, and establish a new partnership along the way!

In other news, Kambrian recently renewed a Multiple Task Order Contract (MTOC) with the Los Angeles Community Colleges District for construction services. Kambrian is eager to provide our cabling expertise for LACCD's upcoming projects. Kambrian and their dedicated team of technicians appreciate this opportunity to provide our expertise to education institutions in California!

In addition to renewing the MTOC with the LA Community Colleges District, Kambrian is happy to announce that we also recently renewed our Local Small Business Enterprise (LSBE) Certification with the County of Los Angeles. Kambrian is in its 11th year of being a devoted reseller for LA County. We are happy to continue on this endeavor to serve as a reliable resource for our LA County customer throughout their procurement processes.

NEW TEAM MEMBERS

Kendall Brauer

We want to give a warm welcome to one of our new Technical Sales Managers. We're happy to have you join the Kambrian IT sales team, Kendall!
