

COMPANY NEWS: *New Team Members!*

Welcome, Matt and Jason, to Kambrian Corporation! We are excited to have you both on board. Matt enjoys playing video games, eating great food, and editing videos! Jason enjoys eating at new restaurants, playing video games, and travelling. Welcome to the team!

COMPANY NEWS: *Low-Voltage and Electrical Scope:*

Kambrian has officially kicked off Project New Horizon 2022 with our first set of small service projects in Dallas, TX with plans to extend into more TX cities, such as San Antonio, Houston, and Austin.

Kambrian is also kickstarting 2022 in the Public Works sector by being awarded project bids for LACCD and LAUSD (LA Unified School District). At LACCD, Kambrian is installing telecom room racks and backboard at one of LACCD's nine campuses. At LAUSD, Kambrian is doing installments, terminating, and testing of copper and fiber at several school.

COMPANY NEWS: *Project New Horizon:*

Kambrian Corporation has been working diligently on expanding into new states, broadening our horizons beyond the state of California. Our newest focus has been on the states of Pennsylvania and Illinois. Recently, Kambrian has received our Small Diverse Business Certification for the state of Pennsylvania and BEP (Business Enterprise Program) for the state of Illinois. This is a great addition to our diversity certifications as we now are able to have more opportunities that are specific to Kambrian's offerings.

New to IT:

Kambrian is constantly working on diversifying our brand line card in order to offer our customers all brands and options they might need. Our most recent additions are IBM, Commvault, Palo Alto, and ServiceNow. These brands will give us great opportunity to broaden our offering.
